Grid-template-areas и grid-area

index.scss

```scss
.header-grid {
  border: 3px solid black;
  padding: 5px;
  color: white;
  display: grid;
  grid-template-areas:
    "logo info"
    "logo nav";
  justify-content: space-between;
  @media screen and (max-width: 768px) {
    grid-template-columns: 1fr;
    grid-template-areas:
      "info"
      "logo"
      "nav";
  }
  &__logo,
  &__info,
  &__nav {
    padding: 20px;
  }
  &__logo {
    border: 1px solid white;
    grid-area: logo;
  }
  &__info {
    border: 1px solid red;
    grid-area: info;
  }
  &__nav {
    border: 1px solid black;
    grid-area: nav;
  }
}
```

Grid-template-areas позволяет нам указать как будет располагаться в сетке (grid) каждая ячейка по имени.
